

SCHOOL OF EDUCATION

Mission

We prepare, support, and inspire our students to lead and serve in a constantly changing world.

Vision

Together we transform lives and strengthen communities.

Guiding Principals

Social Justice

We take the stance that everyone deserves equitable social, political, and economic rights and opportunities and collectively struggle to imagine and create a better world for all.

Innovation and Improvement

We take intelligent risks to create breakthrough improvement in results while strengthening core processes, practices, and outcomes in an iterative, systematic effort.

Reflective Practice

We actively seek to understand the connection among one's actions and experiences to self and practice to gain new knowledge and insights.

Collaboration

We collegially work together in establishing shared goals and completing action steps in ways that could not be accomplished alone.

Care for Self and Others

We promote and engage in the practice of supporting the physical and psychological health of ourselves and others.
