

DOCTOR OF PHARMACY / MASTER OF PUBLIC ADMINISTRATION

Students may earn a Master in Public Administration through a joint program established in cooperation with the Zimpleman College of Business. Students are admitted to the College of Pharmacy and Health Sciences, and during their first professional year may seek admission to the M.P.A. program. Students who pursue this option have management and administrative opportunities in the public sector.

General Electives		20
Written Communication AOI		3
Total Hours		226

A total of 210 credits are required to complete the Doctor of Pharmacy degree.

General Electives:

Students complete the Drake Curriculum requirements and other credits for a total of 20 credits. Drake Curriculum requirements not fulfilled through required coursework are the Artistic Literacy, Historical Foundations, and Global and Cultural Understanding AOIs. MPA coursework will count towards the general elective requirement.

Professional Electives:

Five (5) professional elective credits are satisfied by MPA coursework.

Students may enroll in additional summer coursework or complete final MPA courses after PharmD completion. If the dual curriculum requires more than 18 credits in the fall or spring semesters, a credit fee waiver will be requested on the student's behalf. If students wish to take beyond the required credits for the semester, they must request an "Over 18 Hours Request Form," which can be found in the Forms Library, and the additional course work will not qualify for an overload fee waiver.

Students in the combined program also complete two electives of three credits each. Students who wish to complete an M.P.A. area of emphasis should visit with an M.P.A. advisor, as this requires additional coursework.
