DOCTOR OF PHARMACY / MASTER OF SCIENCE IN HEALTH INFORMATICS AND ANALYTICS

Designed to maximize graduates' opportunities in the rapidly growing fields of healthcare informatics and data analytics, the PharmD/MS HIA dual degree program allows students the opportunity to complete HIA coursework in place of elective course work within the pharmacy curriculum. Students begin at Drake in pharmacy and apply to the Master of Sciences in Health Informatics and Analytics Program during their first professional year or when they are nearing the completion of 90 credit hours.

Code	Title H	lours
BIO 012 & 012L	GENERAL/PRE-PROFESSIONAL BIOLOGY I and GENERAL/PRE-PROFESSIONAL BIOLOGY I LAB	4

PHAR 134	PRINCIPLES OF DRUG ACTION II	5

Program Notes:

Following completion of 90 credit hours and admission into the MS HIA program, students may enroll in MS HIA coursework.

Recommended Summer Coursework

Students who wish to complete both degrees in the four professional years will need to plan to complete MS HIA courses during the summer sessions. This program requires a careful selection of courses for the MS HIA degree as electives in the pharmacy curriculum. Students may enroll in additional summer coursework or complete final MS HIA courses after PharmD completion. If the dual curriculum requires more than 18 credit hours in the fall or spring semesters, an overload credit fee waiver will be requested on the student's behalf. If students wish to take beyond the

required credit hours for the semester, they will need to request an "Over 18 Hours Request Form," which can be found in the Forms Library, and the additional course work will not qualify for an overload fee waiver.

A total of 210 credits are required to complete the pharmacy degree.

General Electives:

Students complete the Drake Curriculum requirements and other credits for a total of 20 credits. Drake Curriculum requirements not fulfilled through required coursework are the Artistic Literacy, Historical Foundations, and Global and Cultural Understanding AOIs. MSHIA coursework will count towards the general elective requirement.

Professional Electives:

Five (5) professional elective credits are satisfied by MSHIA coursework.

Professional Electives Policy:

Core curricula of CPHS degree programs may require professional elective courses that permit exploration of and/or advanced study in areas of professional interest within the student's primary degree. Professional electives provide the student with an opportunity to not only pursue areas of intellectual interest, but also to develop an individual "brand" that may benefit them in their professional or academic future. Students who desire to have a non-approved electives count toward professional elective credit should apply for an exception to program policy prior to taking the course whenever possible. Professional electives must be taken for a grade unless the course is designed as credit/no credit. Students should refer to their degree audit for determination of the total number of required professional electives. Students should review the student handbook (https://www.drake.edu/cphs/handbookspolicies/) for the complete professional elective policy and details specific to their degree program.

Potential Professional Electives:

Code	Title	Hours		
May choose a maximum of 3 of the following:				
IS 210	BUSINESS ANALYTICS, TEAMS, AND PROJECTS	3		
IS 220	INFORMATION TECHNOLOGY LEGAL AND ETHICAL ISSUES			
STAT 260	APPLIED ANALYTICS PROJECT			
MBA 245	LEADING WITH DATA			
MBA 254	LEADERSHIP AND HUMAN CAPITAL DEVELOPMENT			
QUAN 270	QUANTITATIVE ANALYTICAL METHODS			
HSCI 261	REVIEW OF STATISTICS FOR EVIDENCE BASED HEALTHCARE	3		
HSCI 262	CRITICAL APPRAISAL IN EVIDENCE BASED HEALTH CARE	3		
HLTH 261	HEALTH CARE POLICY	3		
HLTH 263	HEALTH CARE ADMINISTRATION	3
