

BUSINESS STUDIES BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION

Program Overview

The curriculum is designed to prepare an individual for a variety of entry-level positions in business, to provide a strong foundation for graduate study in business or one of the business disciplines, to accommodate some transfer students who have difficulty completing a full major in a business discipline because of self-imposed constraints, and to provide a strong second major for Economics majors and non-business majors.

While the other majors in the Zimpleman College of Business provide advanced, in-depth study of at least 18 hours in a single discipline, the business studies major provides some advanced study in at least four different business disciplines. Because there are no required courses in the major, it provides students with the opportunity to create a major that best fits their capabilities and interests.
