

BUSINESS LAW BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION

Business Law Major Program Overview

The Business Law major is designed for students who are interested in developing expertise on the legal and regulatory climate that affects business decisions. Coursework emphasizes a systematic framework for analyzing statutes, regulations, case law, contracts, and policy while considering corresponding business risks and liabilities. Students will develop superior problem-solving and analytical skills alongside strong communication skills so that they can interpret and explain complex information both verbally and in writing.

This major will appeal to those with an interest in how businesses operate in an increasingly complex and dynamic legal environment. Many graduates of this program will enroll directly in law school, but they are just as likely to immediately begin a career in human resources, compliance, risk management, insurance, banking, securities, real estate, or any other highly regulated industry.
