

HEALTH SCIENCES CLINICAL AND MEDICAL SCIENCES/ ALLEN COLLEGE BACHELOR OF SCIENCE IN NURSING (BSN)

Allen College of Health Sciences offers an accelerated B.S.N. that can be completed while students also complete the B.S. This provides an opportunity for health sciences students to complete a B.S.N. program while also earning a BS-HS degree. The degrees are to be conferred at the same time so that students do not lose eligibility for certain forms of financial aid. Each institution would grant its own degree.

Allen College's accelerated B.S.N. program is a three semester, 13-month curriculum. Students will learn about nursing using a concept-based approach that emphasizes nursing content across the life span and diverse clinical settings. The coursework prepares graduates to care for patients and families in acute care and community settings. Graduates are prepared to assume roles involving leadership, education, research, and community health.

Students enrolled in this program will complete all coursework at the Allen College campus.

Clinical Experience Information

Clinical semesters occur in the last three semesters of the B.S.N. program, along with NU 380 which includes a student research project and presentation.
